Education

Bachelor's in Computer Science
Bennett University
May 2024

Skills

Languages and Tools
Python-4.0 || SQL-4.5 || Excel-4.4 ||
Power BI-4.2

Cloud Computing Tools
Microsoft Azure, Kubernetes, GitHub, API

ML Libraries
Pandas, NumPy, Scikit-learn, seaborn,
Matplotlib, NLTK

Certifications

Advanced Certification in Full Stack Data Science & AI
E&ICT IIT Guwahati
June 2025

Accenture North America - Data Analytics and Visualization Job Simulation
Forage
Feb 2025

Tata Group - Data Visualisation: Empowering Business with Effective Insights Job Simulation
Forage
April 2025

Data Visualization using Tableau Program
360DigiTMG
May 2025

Awards

Python and SQL Badges
HackerRank
June 2025

Achieved 5 Star Gold Badge in SQL and 4 Star Silver Badge in Python.

Interests

Football, Dancing, Trekking, Travelling, Music

Summary

Motivated Data Analyst engineered in **Python, SQL, Power BI, Tableau and Excel** with practical experience in leveraging these tools for data-driven decision-making. Dedicated to **employing analytical expertise to address business challenges** and striving to translate complex insights into clear, actionable recommendations for stakeholders.

Training Experience

Almabetter Data Analyst Trainee	January 2025 to Present Bangalore, Karnataka
- Acquired skills in Exploratory Data Analysis and Data Visualization, analytical thinking, and technical communication. Achieved proficiency in Python. - Mastered Business Intelligence tools, including Power BI and Tableau, to create insightful dashboards; personally published 4 dashboards that are used by the product team for daily analysis.	

Comfort Design Data Analyst Internship	June 2024 - Dec2024
- Implemented advanced data analysis techniques to interpret complex data sets, curated interactive dashboards for stakeholders to make informed decisions. - Implemented Agile Project Management and Scrum Methodology principles to facilitate seamless project execution, fostering a collaborative environment that ensured efficient progress tracking and adherence to crucial project deadlines. - Facilitated data-driven decision-making across departments by building interactive dashboards in Excel, resulting in stakeholders identifying and fixing the three biggest causes of delivery delays.	

Projects

Ecommerce Analytics: DataCo Analysis Group: Excel Dashboard AlmaBetter Verified Excel Project	February 2025
Analyzed supply chain and web access datasets using Excel to uncover insights on sales trends, customer segments, and delivery efficiency across 25+ global markets. - Implemented advanced Excel (pivot tables, nested formulas, dynamic ranges) to calculate profit margins, flag 12% late deliveries, forecast monthly sales with 90%+ accuracy and model inventory needs. Built an interactive dashboard with 12+ KPIs and filters to track top products, regional performance, and shipping modes.	

Tags: MS Excel, Dashboarding, Data Preprocessing, Data Visualization

Banking Analytics: FinInsight Group: Power BI Dashboard AlmaBetter Verified PowerBI Project	April 2025
Built an interactive PowerBI dashboard analyzing loan performance, customer behavior, and profiles across 150K+ records and 10K+ accounts, delivering insights across 5+ financial KPIs. Cleaned and merged transactional and account-level data, standardized 5+ currencies, and extracted demographics, improving reporting accuracy by 30%. - Performed advanced DAX analytics to uncover a 0.68 credit score–loan correlation, interest–balance trends, and seasonal transaction patterns for strategic decisions.	

Tags: PowerBI, DAX, Power Query, Dashboard, Reports

HealthCare Analytics: Sales Forecasting in Pharmaceutical Industry: ML AlmaBetter Verified ML Project	May 2025
Developed a daily sales forecasting model for 8 pharmaceutical drug categories using 5.8 years of historical data (2,106 records). - Leveraged AutoTS for rolling forward forecasting on 3 major product lines; achieved SMAPE values below 9% for most drug categories, improving investor confidence. Deployed the model using Flask to enable real-time 7-day sales predictions via a web interface for stakeholder use.
